Ref: Variance to Premises License
of Cinque Port Arms.

Dear Sir/Madam,

It has been brought to our attention that the Cinque Port Arms of New Romney have proposed Increased Capacity, Increased Floorspace + disperse bar, and also Live Music on Sundays + Bank holidays. The noise levels of Fridays and Saturdays at the moment are too much to bare, being such a built up area it is having a detrimental affect on peoples lives. We already have a noise level diary sheet of which we fill out weekly, also we have Increased difficulty in parking with the Customers of the pub taking up valuable space, and sometimes we have nowhere to park. The noise levels when customers leave is annoying with door slamming

P.T.O

and raised voices, so waking us up, not mentioning bottles and glasses left in the road.

The music is played in the outside extension area a lot of the time of which the side building opens up. I am led to believe that the music should be played in the main part of old building.

Also both of us work unsociable hours, nights/twilight hours, as some of the other residents do, could you please take our complaint into consideration.

Yours Sincerely

Shepway District Council. 14-6-2017

Dear Sirs

Cinque Port Arms, New Romney, Kent.

In response to the application notice in the side window of the Cinque Port Arms for extended music hours, I wish to make my objections known.

We live several hundred yards from the Cinque Port public house, and never in the 20 yrs we have
(PTO)

- 2 -

lived here & had cause for
complaint - until now.

Their live entertainment noise
levels are loud where we are,
and because of complete
disregard of others, cannot
begin to imagine what it must
be like for their immediate
neighbours.

I sincerely hope action will be
taken on this matter.

Yours faithfully,

Re Licence No SHEP00284/05 Cinque Port Arms, High Street, New Romney, Kent

I have today seen the Variation to the Premises Licence posted in the window the above premises and wish to lodge my objections to it. This is the first time I have seen the document despite passing this spot daily.

I object to the increased capacity on the grounds that currently the numbers of customers parking in Lions Road causes this road to be blocked regularly. Complaints have been made via the Police to the Community Wardens for this area. Any increase would only worsen this situation. On the last Bank Holiday the landlord informed me he had 600 persons on the premises – bearing in mind this size of the building this appears to already be unsafe.

I object to the increased floor space and dispense bar on the same grounds, that to encourage more customers would be unsafe and lead to local roads being blocked.

I object to the live music on Sundays and Bank Holidays on the grounds that there is already ongoing complaints regarding the noise and disturbance regarding live music at this pub. This is causing considerable nuisance to the surrounding neighbourhood. The Environmental Services reference is WK/201625925 and the officer concerned is Daniel Stone.

I can confirm I made contact with the out of hour's service over the last bank holiday weekend – including the Sunday. The level of noise during the day was invasive and irritating. On the Sunday I am aware that further contact was made by Environmental Services and the landlord which resulted in an *increase* in volume therefore I suggest that the landlord is aware of the effect of his live music and does not respond positively when informed of it causing a nuisance.

I wrote to you last September and am aware of the licensing provisions already in place, provisions which continue to be broken. I hope that you can take this opportunity to review this licence in respect of the variance and also for live music.

I am happy to attend any hearing in person should it be required,

Cinque Port Arms Licensing Application

To whom it may concern

We totally object to the licensees being allowed to have music on Sunday afternoons. We have to tolerate very loud live music on Friday and Saturday evenings also foul language and abusive behaviour. We don't feel we need to be subjected to any further annoyance especially Sunday afternoons when families with children are around.
