

Shepway Joint Transportation Board

Held at:	Boulogne Room - Civic Centre Folkestone
Date	Monday, 28 November 2016
Present	Councillors Hod Birkby, Miss Susan Carey, Malcolm Dearden (Chairman), David Godfrey (In place of Peter Gane), Frank Hobbs, Rory Love, Frank Mckenna, Stuart Peall, Mrs Susan Wallace and Martin Whybrow
Apologies for Absence	Peter Gane, Robert Neaves and Mrs Carole Waters
Officers Present:	Kate Clark (Trainee Committee Services Officer), Geoff Mills (Committee Services Officer) and Pauline Rockett (District Manager - Shepway, KCC Highways)
Others Present:	

34. **Declarations of interest**

None

35. **Minutes**

The minutes of the meeting held on 12 September 2016 were submitted, approved and signed by the Chairman.

36. **Highway Works Programme**

Report JTB/16/06 provided an update and summarised schemes that had been programmed for delivery in 2016/17.

Members noted the following:

- Folkestone Central cycle routes phase 3 – Councillor Frank McKenna asked about the availability of the design plan for Earls Avenue cycle facility improvements. Pauline Rockett said she would respond directly to Councillor McKenna and provide an update to the next meeting of the JTB. .

- B2068 Stone Street - Miss Carey said the traffic island at Stone Street had now been installed meaning the current status of these works should now be 'completed'.
- Horn St/Church Rd – Mr Birkby said the Council should have insisted at the time planning permission was granted for the new development that the developer made a contribution towards the cost of widening the bridge. The Chairman advised the Board that the developer was not legally obliged to fund the bridge widening and the costs were also beyond what the Council could provide. Mr Birkby said the position was disappointing given the benefits widening the bridge would bring.
- Parkfield Road (Appendix 1) – Councillor McKenna said that even after 3 years there was still no progress with this scheme. The Board expressed its displeasure at this lack of progress and it was agreed that the Board should write to UKPN expressing its displeasure and the current situation and pressing the company to take some positive action to move things forward. There would be an update to the next meeting of the JTB.

Resolved:

That report JTB/16/06 be received and noted together with the agreed actions.

37. **Winter Service Plan**

Report JTB/16/07 outlines the arrangements that have been made between Kent County Council and Shepway District Council to provide a local winter service in the event of an operational snow alert in the borough/district.

- The Board received confirmation that in the event of an operational snow alert, the three prime hills in the Shepway area, Dover Hill, Spitfire Way, Hawkinge and White Horse Hill, Hawkinge would receive priority. Pauline Rockett also confirmed that all salt bins had been checked and that extra salt grammage would be provided as necessary.
- Councillor Rory Love said that residents could make an impact in clearing snow from driveways and paths etc and this should be noted. The Board was advised that Kent County Council's website encouraged residents to clear snow and ice and offered advice with regard to coping with winter weather conditions.
- Members said that whilst they appreciated the Winter Service Handbook was still in draft there was a date error under the heading 'Farmer Snow Plough Agreements' and the website link under the heading 'Plans of primary and secondary routes' is inoperative. Pauline Rockett noted these and would amend the draft accordingly.

An updated version of the Winter Service Handbook is attached.

Resolved:

That report JTB/16/07 be received and noted.

38. Tontine Street

The Board also discussed an incident which had occurred in Tontine Street with a bus being reported to have mounted the pavement close to a pedestrian. As part of this discussion Councillor Love asked for confirmation as to who was responsible for the enforcement of the Tontine Street contra-flow system. The Chairman said he would arrange for Mr Fred Miller, the Council's Transportation Manager to look into this and advise Councillor Love accordingly.

Winter Service Handbook

2016/17 Shepway District

1. KHS policy statement and plan

This handbook supplements Kent County Council Highways and Transportation's Winter Service Policy Statement which was endorsed and adopted by Kent County Council's (KCC) Environment, Highways and Waste Policy Overview and Scrutiny Committee (EHW POSC). This is available on the KCC website at the following address

<https://shareweb.kent.gov.uk/Documents/roads-and-transport/roads-and-pavements/winter-service/Winter%20policy%202010-11.pdf>

HTW prepares an annual Winter Service policy and plan which are used to determine actions that will be taken to manage its winter service operations. The policy was discussed at the Environment, Highways and Waste Cabinet Committee on the XXXXXXXXXXXX

2. Winter service procedure

During normal working hours the District Manager will deal with all winter service matters, including managing local action in snow/ice emergencies. The Duty Officer (DO) will assume control out of hours. District Manager (DM) will also ensure that adequate support is provided to DO out of hours in emergency situations and that a suitable handover briefing takes place at the start and end of the normal working day.

- 2.1 The Duty Officer will commence duty at 17.00 hours on Friday until 09.00 the following Friday and will be responsible for all the actions below. The DO may be required to become involved before 17:00 hrs to enable proper hand over of information. This will be dependant on the severity of the conditions. Assistance will be given but the ultimate responsibility will be with the DO.
- 2.2 Immediately after 1400 hours daily the weather forecast/information will be available on email/telephone on 03000 413111. (Update forecasts may be available at 21.30 hours each day, or when issued.)
- 2.3 **Instructing and recording actions** – Any initial standard actions will be passed to Amey by the WDO. For normal in hours (09:00-17:00) The District team will record add hoc actions taken on the Winter Service action sheet. This will instruct Enterprise of the action that is needed. Provide as much detail as possible on the form. This is then sent by email to Amey advance of the work.

Out of hours (17:00 -09:00) and in the event that additional actions are needed also use the winter Service action Sheet, recording as much information as possible and pass this information by phone to the Amey Duty Supervisor. If, in the opinion of the duty officer, or on a site check, different action is taken to that recommended by the Winter Duty Officer (WDO), please inform the WDO. Amey will be informed directly of the main action. Duty Officer will decide and instruct on any other action needed.

The winter service action sheet should also be copied by email to the relevant Priority Response Officer, District Manager and Highway Manager. The PRO officer will

Winter Service District/Team Handbook 2016-17

ensure that a WAMS order is raised as soon as practicable. The PRO will save the form in the designated folder on the KHS IT system.

- 2.4 At weekends/bank holidays the winter forecast/action will be sent out at 14.00 hours or soon thereafter. In the event that a forecast is not received the DO will phone the KCC forecast on 03000 413111 to receive forecast and instructions.
- 2.5 If there are any changes, i.e. rain, contact the Amey Winter Duty Supervisor as soon as possible to cancel/ amend the instruction and inform the WDO
- 2.5 A snow/ice emergency can only be declared by a Highway Manager (HM). In the event of a snow/ice emergency being declared by the CDM, strategic action should be considered, i.e. opening an Emergency Room and calling in other staff etc.
- 2.6 In a declared snow emergency the priorities are primary routes, secondary routes, recorded snow clearance priorities and finally anything reported by the public etc. All public reports are to be logged on the CSM system.

Winter Service District/Team Handbook 2016-17

These will be periodically checked and restocked. The Winter Service Policy Statement and Plan sets out the procedures for deploying additional salt bins. During the Winter period, no additional salt bins will be deployed (unless funded through the Members' Highways Fund). Any other requests/locations will be considered during the following Summer.

10. Salt bags

We are offering parish councils the opportunity to have a salt bag delivered again for the winter 2016/17. We will provide one salt bag per parish and this will be a one tonne bag of salt/sand mix. The salt bags will be placed at the start of the winter season for use in the local area, throughout the winter. However, due to the mild winters we have had, there should not be a need for new salt bags.
