

Winter Service Handbook

2017/18 Shepway District

1. KHS policy statement and plan

This handbook supplements Kent County Council Highways and Transportation's Winter Service Policy Statement which was endorsed and adopted by Kent County Council's (KCC) Environment, Highways and Waste Policy Overview and Scrutiny Committee (EHW POSC). This is available on the KCC website.

HTW prepares an annual Winter Service policy and plan which are used to determine actions that will be taken to manage its winter service operations. The policy was discussed at the Environment, Highways and Waste Cabinet Committee.

2. Winter service procedure

During normal working hours the District Manager will deal with all winter service matters, including managing local action in snow/ice emergencies. The Duty Officer (DO) will assume control out of hours. District Manager (DM) will also ensure that adequate support is provided to DO out of hours in emergency situations and that a suitable handover briefing takes place at the start and end of the normal working day.

- 2.1 The Duty Officer will commence duty at 17.00 hours on Friday until 09.00 the following Friday and will be responsible for all the actions below. The DO may be required to become involved before 17:00 hrs to enable proper hand over of information. This will be dependant on the severity of the conditions. Assistance will be given but the ultimate responsibility will be with the DO.
- 2.2 Immediately after 1400 hours daily the weather forecast/information will be available on email/telephone on 03000 413111. (Update forecasts may be available at 21.30 hours each day, or when issued.)
- 2.3 **Instructing and recording actions** – Any initial standard actions will be passed to Amey by the WDO. For normal in hours (09:00-17:00) The District team will record add hoc actions taken on the Winter Service action sheet. This will instruct Enterprise of the action that is needed. Provide as much detail as possible on the form. This is then sent by email to Amey advance of the work.

Out of hours (17:00 -09:00) and in the event that additional actions are needed also use the winter Service action Sheet, recording as much information as possible and pass this information by phone to the Amey Duty Supervisor. If, in the opinion of the duty officer, or on a site check, different action is taken to that recommended by the Winter Duty Officer (WDO), please inform the WDO. Amey will be informed directly of the main action. Duty Officer will decide and instruct on any other action needed.

The winter service action sheet should also be copied by email to the relevant Priority Response Officer, District Manager and Highway Manager. The PRO officer will ensure that a WAMS order is raised as soon as practicable. The PRO will save the form in the designated folder on the KHS IT system.

Winter Service District/Team Handbook 2017-18

- 2.4 At weekends/bank holidays the winter forecast/action will be sent out at 14.00 hours or soon thereafter. In the event that a forecast is not received the DO will phone the KCC forecast on 03000 413111 to receive forecast and instructions.
- 2.5 If there are any changes, i.e. rain, contact the Amey Winter Duty Supervisor as soon as possible to cancel/ amend the instruction and inform the WDO
- 2.5 A snow/ice emergency can only be declared by a Highway Manager (HM). In the event of a snow/ice emergency being declared by the CDM, strategic action should be considered, i.e. opening an Emergency Room and calling in other staff etc.
- 2.6 In a declared snow emergency the priorities are primary routes, secondary routes, recorded snow clearance priorities and finally anything reported by the public etc. All public reports are to be logged on the CSM system.

Winter Service District/Team Handbook 2017-18

These will be periodically checked and restocked. The Winter Service Policy Statement and Plan sets out the procedures for deploying additional salt bins. During the Winter period, no additional salt bins will be deployed (unless funded through the Members' Highways Fund). Any other requests/locations will be considered during the following Summer.

10. Salt bags

We are offering parish councils the opportunity to have a salt bag delivered again for the winter 2017/18. We will provide one salt bag per parish and this will be a one tonne bag of salt/sand mix. The salt bags will be placed at the start of the winter season for use in the local area, throughout the winter. However, due to the mild winters we have had, there should not be a need for new salt bags.
