SUBJECT: FEES AND CHARGES 2018/19

SUMMARY:

This report focuses on the proposed fees and charges for 2018/19 which will contribute towards meeting the council's 2018/19 budget objectives and Medium Term Financial Strategy.

The Council's Fees and Charges Policy was approved by Cabinet on 8 September 2010 (Report C/10/24). This report recommends some changes to the Policy to ensure it remains relevant and up to date.

RECOMMENDATIONS

1. To receive and note report C/17/54.
2. To approve:
 - (i) The 2018/19 fees and charges which are set at the discretion of the council for the General Fund and Housing Revenue Account, as outlined at Appendix 2;
 - (ii) The statutory charges subject to discretionary charges at Appendix 3; and
 - (iii) To note the statutory charges at Appendix 4.
3. To approve the recommended changes to the Fees and Charges Policy, as detailed in the report.

1. INTRODUCTION AND BACKGROUND

- 1.1 The Fees and Charges Policy sets out the Council's charging framework. The proposed changes to the Fees and Charges Policy for 2018/19 are highlighted at Appendix 1 and relate to the addition of two new exceptions to the principles of full cost recovery and inflationary increases:

- Commercial activities - where fees and charges need to respond to market conditions or their ability to compete effectively for tenders. These will be discussed with the relevant portfolio holder at the appropriate time but will be on the basis of covering all costs at a minimum.
- Statutory charges - over which the council has no control and will be introduced as per the respective guidance and will not be subject to this policy

Price Inflation

- 1.2 The proposal for 2018/19 is to apply the CPI rate at June 2017 (2.6%) as the benchmark for price increases. There are exceptions to this principle where an inflationary increase is anticipated to have an adverse impact on demand or where it would place the charge out of line with comparable services in neighbouring councils.
- 1.3 The proposed discretionary fees and charges for 2018/19 are detailed at Appendices 2 and 3. Statutory charges are shown in Appendix 4.
- 1.4 A further report will be presented to Cabinet in December 2017 which sets out the proposed charges for car parking in 2018/19.

4.16 Planning Fees

The Government's Housing White Paper (February 2017) announced that councils in England would be able to raise planning fees by 20 per cent from July 2017. The Department for Communities and Local Government then wrote to local planning authorities to offer them a deal: the 20 per cent fee increase, in return for a commitment to 'invest the additional fee income in their planning department'. All councils in England accepted this offer, which was then delayed following the general election earlier this year. The fee increase will commence at the beginning of 2018.

5. 2018/19 GENERAL FUND BUDGET IMPLICATIONS

6. PROPOSED AMENDMENTS TO HOUSING REVENUE ACCOUNT FEES AND CHARGES

Charges for Wastewater Treatment Works and Pumping Stations

- 6.1 The 2017/18 Fees and Charges report highlighted that the HRA subsidises the cost of this service. As in previous years, Cabinet agreed to limit increases on the charge for this service for existing users to annual increases of 8% in 2017/18 where users of the service were already paying the maximum charge of £810 per property. Users whose charge was lower than this would continue to pay the actual cost of the service up to the capped maximum amount. Cabinet has also previously agreed that new purchasers of properties, who buy under the 'Right to Buy' scheme, pay the actual cost of wastewater treatment works and cesspools.

The increase to the capped charge takes it from £810 in 2017/8 to £875 in 2018/19 and will reduce the HRA subsidy to £6,000 from £8,000.

Cesspools

- 6.2 In 2017/18 the same principle of the council recovering its costs up to a maximum of £810 for each household has previously been approved for the 7 council-owned properties which drain to cesspools. This produces annual income of £5,670. The cost of the service in 2016/17 was £9,410. If the cost is about the same in 2017/18 the HRA would be subsidising the service by approximately £3,740. In line with the above, it is recommended that the cap remains at the already approved figure of 8% per annum for 2018/19 taking the annual charge to £875.
- 6.3 Charges to tenants for garages, parking, room hire, etc. are to be increased by 2.6%
- 6.4 The budget implications of these changes will be reflected in the Housing Revenue Account and Capital Original Budget 2018/19 report to Cabinet in February 2018.

7. RISK MANAGEMENT ISSUES

- 7.1 A summary of the perceived risks follows:

Perceived risk	Seriousness	Likelihood	Preventative action
Income targets are not achieved resulting in a budget deficit	High	Medium	All fees and charges and income budgets are reviewed in detail each year to ensure that they are reasonable and achievable.

8. LEGAL/FINANCIAL AND OTHER CONTROLS/POLICY MATTERS

8.1 Legal Officer's Comments (DK)

As a general rule, the Council is under a duty to act fairly in its decision-making, including exercising its discretion to increase relevant fees and charges. The Localism Act 2011 gives the Council a wide ambit of power to charge for its services and section 93 of the Local Government Act 2003 gives the Council capacity to charge for relevant services; on the basis it is doing so without 'trading' (or making a profit).

8.2 Finance Officer's Comments (AK)

The financial implications are set out in the report.

8.3 Diversities and Equalities Implications (AK)

The budget report to Full Council in February 2018 will include an Equality Impact Assessment of the budget recommendations for 2018/19.

General Fees and Charges Policy

All fees and charges are subject to the following general policy.

1. There shall be full cost recovery so that general council taxpayers are not subsidising the costs of an optional service. Any exceptions to this rule can only be agreed by cabinet. Where there is a substantial change between the current charge and the full cost recovery amount, the increase can be staggered over a period of up to three financial years.

In addition:

2. Fees and charges are increased by the current rate of inflation (generally rounded up to the nearest 10p).

The main exceptions to this rule are:

- Court fees
- Room bookings at the civic centre – voluntary organisations
- Car parking – as subject to review in the Car Park Strategy
- Building control – subject to full cost recovery of building control chargeable element.
- Contract charges with other organisations which are subject to separate negotiations
- [NEW] Commercial activities - where fees and charges need to respond to market conditions or their ability to compete effectively for tenders. These will be discussed with the relevant portfolio holder at the appropriate time but will be on the basis of covering all costs at a minimum.
- [NEW] Statutory charges - over which the council has no control and will be introduced as per the respective guidance and will not be subject to this policy
