Solar PV Panels for new Annexe to Lympne Village Hall.

To provide funding of £1000 to the above project.

Installing solar panel will keep running costs low, which is essential if we are to continue to offer the hire of the hall and annexe at competitive rates for all our users and will help attract new ones. Lympne is a relatively isolated village and having a place where people can get together and take part in activities is essential to ensuring a good quality of life here and enabling the village to thrive as a community.
