

Minor amendments – Fees and Charges 2023/24 – Car Parking

Additional Income generated from the adjusted parking charges is expected to be very low as data shows that most customers pay to park for two hours. The adjusted charges are purely to enable linear per minute charging, which will enable customers to pay for the proportion of time spent (per minute) rather than fixed hourly rates. Customers in the District have previously been used to this arrangement for charging.

Minor amendments – Fees and Charges 2023/24 – Garage rents

It is recommended that the following charges are amended due to a VAT difference between the system calculated VAT and the approved fee and charge schedule (inflated) for privately let garages/parking spaces. HRA resident spaces and garages were not impacted as no VAT is charged. To avoid the issue, the Rent and Systems Officer has recommended correcting the issue as per the table below, which avoids manual workarounds to the housing system.
